

Explanation Text

This week and last we have been reading, researching and recording explanation texts.

I would like you to choose a topic of your choice and record an explanation text. It could be about how volcanoes erupt, how a rainbow is formed, how the heart works or any other idea that you would like to write about and share with us in school.

Remember your explanation text must...

- Include an introduction (a general statement about the topic)
- Include how something works or happens
- Use connectives
- Include sub-headings
- Use technical vocabulary
- be the correct tense throughout
- use a variety of punctuation
- make sure your sentences are grammatically correct.
- Include a diagram
