How would you feel when you first arrive at the mountain as it towers above you?

What does it look like?

How are you feeling?

What is the campsite like? The weather?

Think about when you first leave your camp to take the long journey to the summit. The weather conditions will change rapidly from sunshine to snowstorms.

How dangerous will it be on the rocky unstable ledges around the gigantic structure?

How heavy is your equipment? How will you keep warm?
